

BOLD Business Bootcamp ...a holistic approach to doing business

ARE YOU SERIOUS? ...or just interested in achieving success?

Spend a day to look backward, forward, inward and outward as you create your roadmap for success and your best year yet. Contemplating 10 simple questions will set you on the path taking you closer to your vision of success.

In this workshop you will create your 12-month business roadmap by:

- Reviewing the past year and recognizing the significant "lessons"
- Uncovering limiting mindsets and behavior and define your empowering paradigm
- Clarifying key roles, focus and 12-month objectives
- Developing your strategy for action, follow-up and support to increase chances of success

"This was the most creative and productive thing I've ever done for my business – for myself. I not only know why I've not achieved some of my goals, I know what to do!"

"The way Bold Vision runs this program is great; you realize you're not alone and that you have a lot of company. I work alone much of the time and the ability to hear about the challenges and fears others are having helps me put things in a much better perspective."

BOLD Business 2007 Bootcamp - Be Bold and take a holistic approach in your annual planning. (See www.BoldVisionConsulting.com/events for more information) **\$189 (includes lunch)**
